First API: Text to Audio

The screenshot shows the API Training interface for the 'S01-Text to Audio' endpoint. The request is a POST to `https://api.groq.com/openai/v1/audio/speech` with the following JSON body:

```
1 {
2   "model": "canopylabs/orpheus-v1-english",
3   "input": "[cheerful] vanakkam, I am a language model created by Groq. I am here to help you with any
4     questions you may have. How can I assist you today?",
5   "voice": "diana",
6   "response_format": "wav"
7 }
```

The response is a 400 Bad Request with the following JSON body:

```
1 {
2   "error": {
3     "message": "The model 'canopylabs/orpheus-v1-english' requires terms acceptance. Please have the
4       org admin accept the terms at https://console.groq.com/playground?
5       model=canopylabsk2forpheus-v1-english",
6     "type": "invalid_request_error",
7     "code": "model_terms_required"
8   }
9 }
```

The right sidebar shows a 'New Chat' section with a message: 'The API is returning a 400 error because the model requires terms acceptance, which must be done by an administrator in the Groq console. Please accept the terms for the model at the provided URL, and then I can assist you with re-sending the request.' Below this is a 'Diagnose' button. At the bottom right, there are buttons for 'Run S01-Text to Audio smoke check', 'Capture response fields to vars', and 'Chain S01 to next GenAI step'.

Accepted the terms and condition

The screenshot shows the API Training interface for the 'S01-Text to Audio' endpoint. The request is a POST to `https://api.groq.com/openai/v1/audio/speech` with the same JSON body as in the previous screenshot. The response is a 200 OK with a status of 1.45 s and 402.04 KB. The response body is a large black rectangle, likely representing the audio file. Below the response body is an audio player interface with a play button, a progress bar, and a volume icon. The right sidebar shows a 'New Chat' section with a message: 'Add latency + audio validation', 'Parameterize text and voice', and 'Save as a repeatable monitor'. Below this is a 'Describe what you need. Press @ for context, / for Skills.' section with an 'Auto' button.

Second API : MultiLingual

The screenshot shows the API Training interface with the following details:

- URL:** `https://api.groq.com/openai/v1/chat/completions`
- Method:** POST
- Body (JSON):**

```
1 {
2   "model": "llama-3.3-70b-versatile",
3   "messages": [
4     {
5       "role": "system",
6       "content": "You are an API Specialist. Always respond in the same language as the user."
7     },
8     {
9       "role": "user",
10      "content": "மிகவும் நன்றி! இந்த API-ஐ எப்படி பயன்படுத்துவது என்று சொல்லுங்கள்."
11    }
12  ]
13 }
```
- Status:** 404 Not Found
- Response (JSON):**

```
1 {
2   "error": {
3     "message": "The model 'llama-3.3-70b-versatile' does not exist or you do not have access to it.",
4     "type": "invalid_request_error",
5     "code": "model_not_found"
6   }
7 }
```
- Right Panel:** "New Chat" section with a message: "Update the model name to a supported version, as the previous model was not found." and a "Apply" button.

The screenshot shows the API Training interface with the following details:

- URL:** `https://api.groq.com/openai/v1/chat/completions`
- Method:** POST
- Body (JSON):**

```
1 {
2   "model": "openai/gpt-oss-120b",
3   "messages": [
4     {
5       "role": "system",
6       "content": "You are an API Specialist. Always respond in the same language as the user."
7     },
8     {
9       "role": "user",
10      "content": "மிகவும் நன்றி! இந்த API-ஐ எப்படி பயன்படுத்துவது என்று சொல்லுங்கள்."
11    }
12  ]
13 }
```
- Status:** 200 OK
- Response (JSON):**

```
1 {
2   "id": "chatcmpl-927ed2c9-b722-4d57-a4e0-2535434692bb",
3   "object": "chat.completion",
4   "created": 1787741852,
5   "model": "openai/gpt-oss-120b",
6   "choices": [
7     {
8       "index": 0,
9       "message": {
10        "role": "assistant",
11        "content": "++OpenAI API-ஐ (ChatGPT) பயன்படுத்தும் முறையின் விளக்கம் -
12        தமிழில்++\n\n1. API முகவரித் தகவல்கள்\n1. உறுப்படி | விளக்கம் |\n\n-----\n\n\n++அட்வான்ஸ் (Endpoint)++ | 'https://api.openai.com/v1/chat/completions' |
13        \n\n++அட்வான்ஸ் (Authentication)++ | HTTP Header-இல் 'Authorization: Bearer "
```
- Right Panel:** "New Chat" section with a message: "Fix the 404 with a req checklist" and a "Describe what you need. Press @ for context, / for Skills." button.

Third API: Generate API test cases from Swagger code
